ENCYCLOPAEDIC DICTIONARY OF BIOETHICS, 4 VOLS

Global Vision Publishing House, 2012. Hardcover. Book Condition: New. Bioethics is the multi-disciplinary study of ethical problems of humanity arising from scientific advances in medicine and technology examined in the light of moral values and principles. It deals with questions of moral dimension and professional responsibility involving all forms of life: issues of medical decision making, living and dying, withdrawing and withholding medical care, conducting research on human subjects, allocating scarce resources, transferring cells from one or several organisms to...
