Texas A&M University Press. Paperback. Book Condition: New. Paperback. 258 pages. Dimensions: 9.1in. x 6.0in. x 0.8in. In 1956, the era of tail-finned cars and nineteen-cents-a-gallon gasoline, the Missouri Pacific Railroad emerged on the corporate scene as a private company after twenty-three years in a receivership. In its past lay a collapsed rail empire, a sensational bankruptcy struggle that shattered dreams and betrayed trusts, an emotional battle over stockholders interests, and the flamboyant maneuvers of the railroads overseers. In its future lay two computerized, merger-dominated decades in which the railroad business would serve as a classic example of a tradition-bound industry forced to adapt to future shock. The transition from crippled line to prime property would become, as one politician later put it, a lawyers paradise, and a security-holders nightmare. H. Craig Miner, using a wealth of oral and written primary sources, with the cooperation of the company and complete access to records and personnel, describes and critically analyzes, the physical and financial revolution of the Missouri Pacific. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
