Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

Not illustrated. 1905 Excerpt: .of an ex-mayor of a city, and also from the standpoint of the general counsel of a contracting company engaged in laying pavements. I hope, therefore, to be able to discuss the question somewhat from both sides. There was one expression in that paper to which I desire, at the beginning, to record my most earnest approval, and that was the statement that every city should have a plant to look after the maintenance and repair of the streets of the city. The only amendment I could offer to that statement would be to add that that plant should be prepared not only to look after the maintenance and repair of the streets, but should be able to pave the streets. In my humble judgment, a city of 25,000 or 50,000 inhabitants that has no stone crusher, no road roller, no plant for the laying of some kind of modern pavement, is not worthy to be called a city. It is a mere village. One of the first and fundamental principles for which municipal governments were organized was to open and widen streets, and yet in this day of 1905, there are over half of the larger cities that are neglecting the original function for which their charters were issued, and are allowing their streets to be built and repaired by contract, a practical confession of inability to govern themselves. I shall hurry along and merely mention some of those things that have been suggested to...
