Tony has had a long and outstanding career. As a researcher, he has made important contributions in several areas of systems theory and control theory, especially stability analysis of large-scale dynamical systems. The numerous awards he received from the professional societies, particularly the Institute of Electrical and Electronics Engineers (IEEE), are a testament to his accomplishments in research. He received the IEEE Control Systems Society's Best Transactions Paper Award (1978), and the IEEE Circuits and Systems Society's Guillemin-Cauer Prize Paper Award (1984) and Myril B. Reed Outstanding Paper Award (1993), among others. In addition, he was a Fulbright Scholar (1992) and received the Alexander von Humboldt Forschungspreis (Alexander von Humboldt Research Award for Senior U.S. Scientists) from the German government (1997).
